## SUMMARY

### Assistant Manager — Technical Program Management | PMP® & Atlassian Agile Certified

Architected four concurrent digital products impacting INR 2.7L Cr AUM and enhancing user journeys of 15M+ customers on a shared Oracle CX AI intelligence layer with zero-downtime project delivery. Delivered 2M+ compliant profiles, 82% TAT reduction, 7 siloed verticals unified, a national HNI growth ranking, and zero compliance violations under RBI, NPCI, and UIDAI frameworks.

## WORK EXPERIENCE

### The Federal Bank Ltd., Digital Centre of Excellence, Chennai: Assistant Manager — Product Management Aug 2022 – Mar 2026

- **Enterprise CX Platform — Oracle CX AI, Buy-and-Build:** Led delivery of a bank-wide Oracle CX AI platform unifying 7 siloed verticals under one customer profile. Drove Buy-and-Build vendor decision through weighted scoring, securing CTO and Compliance sponsorship. Designed Event-Driven Architecture (EDA) with webhook notifications cutting lead response 40%. Zero compliance rejections on first UAT across 4 products and 3.5 years via hybrid Agile/Waterfall governance (2-week sprints, Jira, Confluence).
- **Federal 24x7 — Consumer Onboarding (2M+ profiles):** Diagnosed 72% abandonment as architecture (not UX) via funnel analytics (12K sessions), exit surveys (340), and session replay (150). Designed Generate-and-Freeze architecture separating Aadhaar-linked provisioning from async Video KYC with Computer Vision ML for document and facial validation. Delivered 82% TAT reduction (11 to 2 min), 3x completion lift (28% to 85%), and 1,000+ HNI acquisitions.
- **Fed-E-Remit — Cross-Border Remittance (5 corridors, 13 currencies):** Ran parallel GTM expansion (UAE, UK, USA, Singapore, Canada) and funnel optimisation. Cut corridor launch from 8 to 5 weeks, driving 18% regional market share and \$2.4M net-new volume. A/B tested abandonment hypotheses, identified rate-opacity via session replay, shipped FX rate-lock for 23% abandonment reduction and \$180K annualised recovery. Led SWIFT ISO 20022 migration (MT to MX) across all 5 corridors with zero customer disruption and delivered unified multi-device journey with inline FEMA/LRS compliance surfacing.
- **Federal e-Rupee — CBDC (0-to-1 Greenfield, May 2025 GA):** Built one of India's earliest private-bank CBDCs from zero (wallet, compliance, settlement), among <12 banks in production at launch. Designed two-layer architecture (versioned regulatory + stable consumer) absorbing 2 RBI framework updates with zero UX changes. Integrated WaveBL eBL for cross-border trade settlement via CBDC, with adoption signals enriching Oracle CX AI's unified profile for behavioural scoring.
- **FedOne — Enterprise Business Banking (Trade Finance Suite):** Rebuilt legacy platform (vs. patch) to integrate with Oracle CX AI. Digitised full trade finance lifecycle: LC, forward contracts, Bank Guarantees, CGSE export bills. Migrated 120+ enterprise clients with zero incidents. Delivered 62% TTR reduction, 99.9% SLA adherence, 14 hrs saved per LC, 200% capacity increase. Led adoption recovery achieving 34% DAU lift in 60 days via session-replay-driven workflow redesign.
- **Analytics, Dashboards, and Executive Communication:** Built real-time dashboards (Tableau, Power BI, SQL into Finacle and IBM TM1) cutting risk-signal latency 70% (72 to 4 hrs) and saving 400+ hrs/year in manual reporting. Developed contribution-margin scoring growing portfolio to INR 750 Cr AUM (145% YoY, 50% cross-sell rate). Produced executive communications adopted by 8 C-suite stakeholders supporting INR 10 to 15 Cr board-level investment decisions.
